

MID & SMALL IN LONDON 2023

APRIL 20, 2023

Datalogic at a glance

Global technology leader in the automatic data capture and
industrial automation markets, in the Retail, Manufacturing,
Transportation & Logistics, and Healthcare industries
Founded in 1972, listed on the Italian Stock Exchange since 2001

A portfolio of about 1,200+ patents and patent applications

450+ engineers in 11 R&D centers and 3 DL Labs in: Italy, USA, Vietnam, Cech Republic and China

>3,000 Employees in 29 countries

11 Manufacturing and Repair facilities in: Italy, US, Hungary, Slovakia, Vietnam, China and Australia

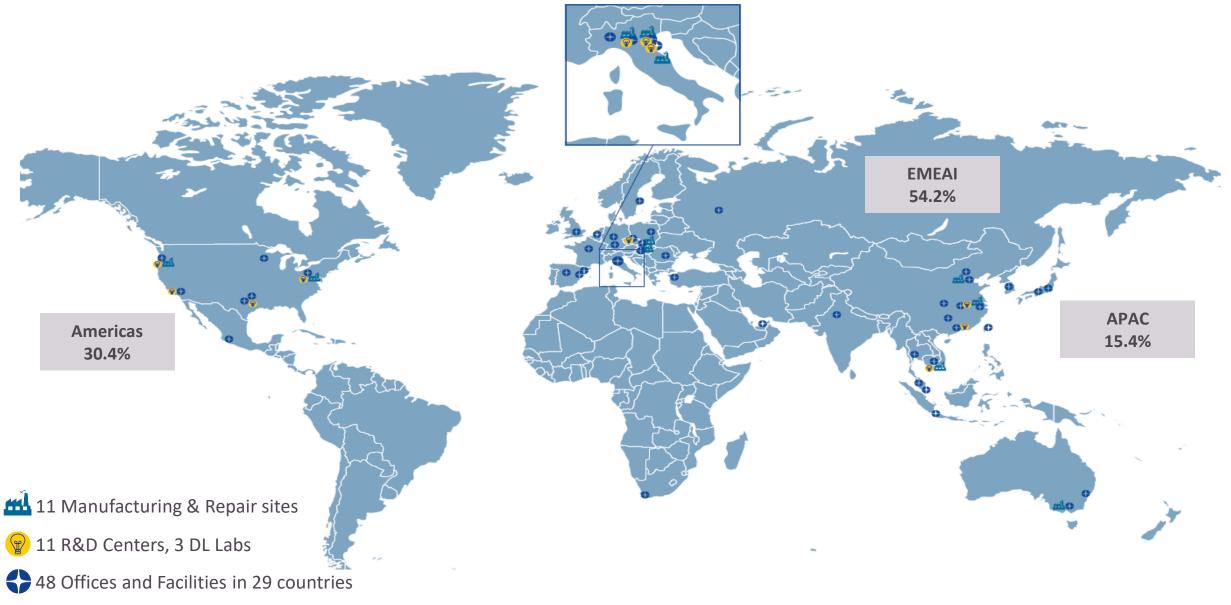

More than 50 years of Growth through Technological Innovation

 Foundation of the Company, based on sensors product portfolio 	Expansion of the portfolio to barcode reading products, applications and technologies	 Pivoting from «laser» to «imaging» and becoming the technology leader of barcode reading Entering the space of «Mobile Computers» with the acquisition of «IDWare Mobile Computing» 	 Listing at the Milan Stock Exchange Further expansions thanks to acquisitions (e.g. PSC, Laservall, Informatics, Accu-Sort) Footprint expansion: Vietnam, Slovakia, Hungary 	 50th year anniversary Acquisition of MD Microdetectors Acquisition of Pekat Starting the path towards «Solutions»
1972	1974	1988 - 1997	2001 - 2012	2021-2022 Today

A Wide Geographical Footprint

OIDOJATACO

Strategy

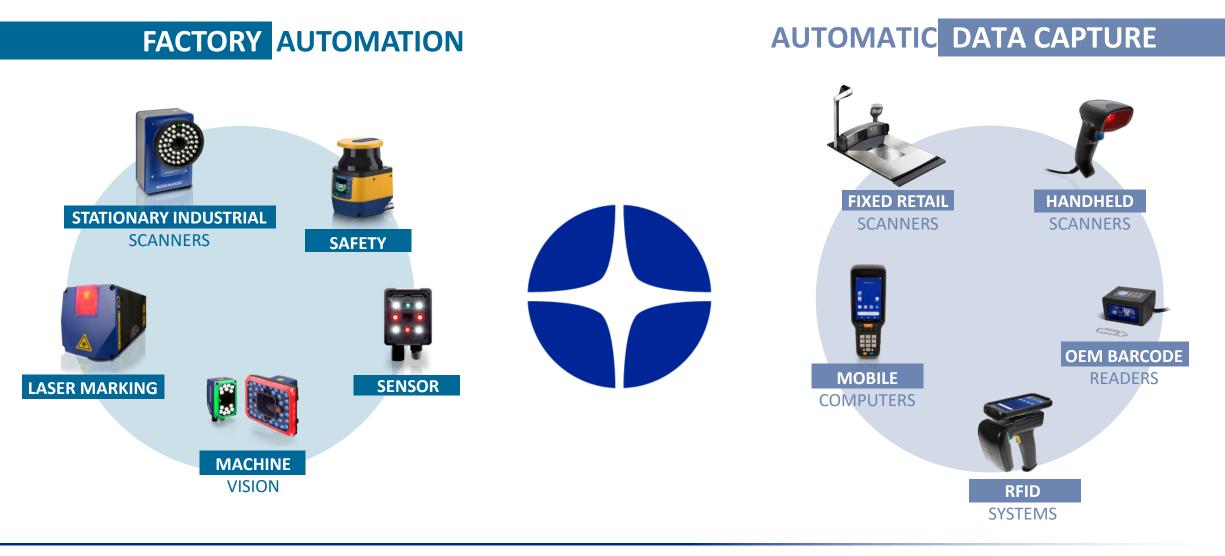

Our strengths

Unique player in both FA and ADC markets

Datalogic is the only player with a wide and consolidated experience in the two fields of:

The «Datalogic ecosystem»

Retail Increasingly self check-out and contactless

Market trends

- Despite Retail a more mature market, Self Check Out (SCO) and contactless applications the new wave of automation across retailers to enhance productivity, reduce losses and face increasing labor shortage and its higher associated cost
- Omnichannel/e-commerce development the fastest growing opportunity across the retailers' value chain
- Many solutions are piloted by retailers' need to improve the customer experience and attract people in the store

Datalogic Proposition

- Market Leader along the Retail supply chain from 1974 with the first scanner ever sold to a grocery store in Troy, Ohio
- Excellence in productivity and customer experience for self-checkout and attended lanes for both Grocery and Non-Food with FRS and HHS product portfolio
- Perfect partner to automate operations and exploit Retail analytics, thanks to
 Al/machine learning-driven applications and automation
- Innovative solutions to integrate in-store with warehouse operations

2022 Results

 The Retail grew by 12.5% (6.2% at constant FX) driven by double digit performance in APAC (+33.9%) and Americas (+29.4%)

Manufacturing Process digitization

Market trends

- Manufacturing the largest industry
- Growing production data acquisition needs, traceability and analytics driving the digital transformation in Manufacturing
- Efficiency and productivity improvements, need to offset labor shortage and reallocation/distribution of production sites in multiple geographies pushing for increasing investments in automated operations/solutions

Datalogic Proposition

- Multi-product portfolio to serve all the major manufacturing clients: Automotive, Food and Beverage, Automated Machinery and Electronics, Packaging and Intralogistics
- Leader in traceability thanks to the most complete and performing offer of stationary industrial scanners
- Unique portfolio provider of smart, interconnected devices able to unlock new frontiers of action-oriented insights based on advanced analytics (e.g. predictive maintenance)

2022 Results

The Manufacturing sector grew by 8.4% (+4.8% at constant FX), also thanks to the acquisition of MD in 2021. Americas and EMEAI lead the sector's performance, recording a growth of 28.1% and 11.4% respectively

Transportation & Logistics Stabilization after the e-commerce growth

Market trends

- Long term trends to satisfy end to end traceability in T&L and to improve efficiency and productivity through machine learning solutions (e.g. no read analysis, dimensioning, traceability, palletization analytics, parcel optimization, etc)
- A stabilization period after the significant investments of the past two years driven by e-commerce growth expected in the short term

Datalogic Proposition

- We enhance operations to Courier-Express-Parcels, Airports and Logistics
- At the forefront of the development of airport systems, since 1984 with the first automatic reading station in Milan, to the recent contracts on 3 of the 5 main airports worldwide (source: SkyTrax rating)
- Historically leader in stationary industrial scanners, providing top performing solutions for High-Speed sorting to all the main CEPs and 3PLs
- Increased level of efficiency and full tracking capabilities along different supply chain phases for enhanced decision-making

2022 Results

The T&L sector grew by 12.9% (+7.8% at constant FX) compared to 2021, with growth of 26.5% in Americas and 13.1% in EMEAI.

Healthcare

Digital dominates and sustainability grows

Market trends

 Sustainability, traceability, localization, end to end patient monitoring the main automation trends in Healthcare

Datalogic Proposition

- Datalogic innovations are helping protect patients and staff at healthcare facilities worldwide, with its application for the bedside care
- Datalogic provides unique product features for the HC industry such as: Antimicrobial enclosures, Inductive charging technology for battery recharge, and Green spot good match to ensure positive medicine-patient identification

2022 Results

- The **Healthcare sector** decreased by 5.2%. EMEAI up 3.9%.
- The Datalogic Group sustained its offering of solutions for the traceability of vaccines, as well as of patients in admissions and bedside care, to track patients' health record and to ensure that the correct drug is administered to each patient
- Particular attention was paid to reducing the risk of contamination in the hospital, thanks to devices with disinfectant-ready and antimicrobial external plastics

New Product Launches and Innovation

Uvitality Index at 13.4%

□ R&D Cash Out^{*} at 9.9% in line with the FY 2021 (9.6%). Commitment to Product Development Roadmap continues

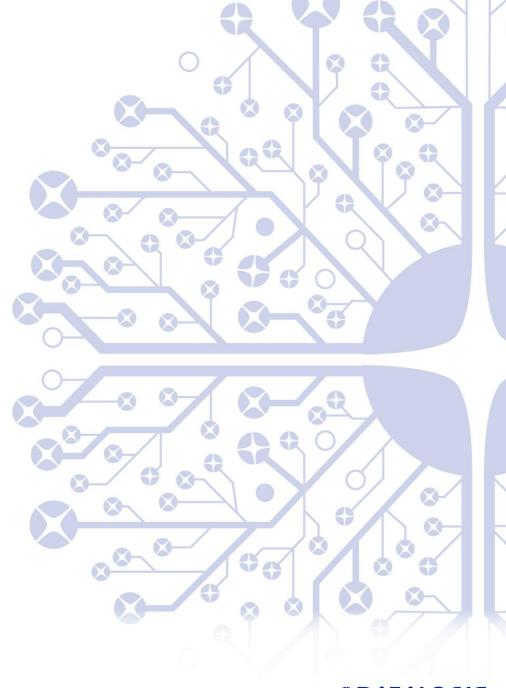

Key Drivers for a Profitable Growth

Market	Portfolio	M&A	Innovation
 Keep focus on all of our verticals, catching the profitable opportunities 	 Protect our leadership in FRS, HHS and SIS 	 Technology: acquire IP, skills, products and concepts to boost both portfolio and capabilities 	 Nurture MV-based SW and Deep Learning technology to tackle key emerging
coming from needs of digitalization and artificial	 Enhance our offer through a software ecosystem to 		trends
intelligence	provide innovative solutions	 Expansion: acquire customers to boost 	 Dominate key technology trends (e.g. 5G, Wifi-6,
 Consolidate position in EMEAI, become a strong player in the United States and keep growing our 	 Increase MOB market share completing and widening our offer 	penetration	Cybersecurity) to prepare for next generation of HW products
presence in China	 Intensify cost optimization to fight hardware commoditization 		

Financials

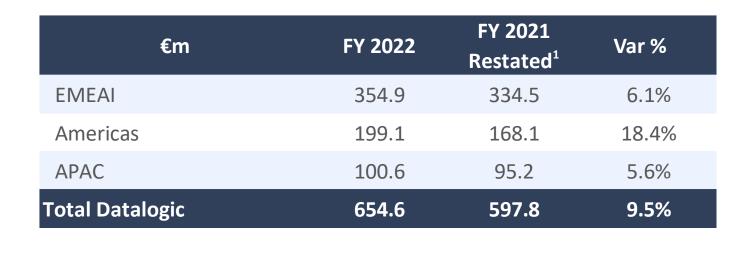

FY 2022 Highlights: a progressive recovery of sales and profitability

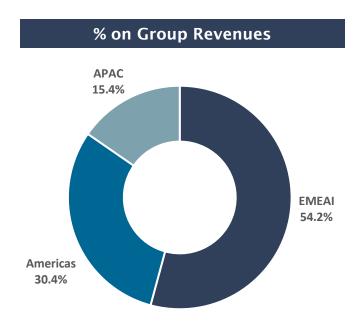

- Revenues growth nearly at double digit and sound recovery of profitability in 2H
- Improving performance across all main industries
 and geographies despite the complex scenario
 due to the shortage of components
- Positive price/mix in the year across main geographies and product lines
- Revenue from new products (vitality index) at 13.4% vs 12.5% in FY2021

- □ **Gross Operating Margin** at 41.9% thanks to price/mix discipline and product redesign, partially offsetting components' price headwinds
- □ R&D Cash Out at €64.6M, steady at around 10.0% on revenues, executing technological roadmap
- Adj EBITDA margin at 12.3% (13.5% in Q4, + 1.7 pps vs Q4 2021)
- Net Debt down at €42.0M, thanks to a strong operating cash generation in Q4, and despite a high Net Working Capital resulting from cost inflation and high inventory levels attributable to shortages

Group Revenues by Geography

EMEAI: Group's first market up by 6.1% (+5.2% Net FX), led by UK & Nordics, Iberia, Italy and Benelux

□ AMERICAS: Group's second-largest market leads the overall growth at +18.4% (+5.7% Net FX), across all the main industries

□ APAC: +5.6% YoY, growth mainly driven by Japan (> 30% Net FX), and China

¹ The comparative results as of December 31, 2021 have been restated following the purchase price allocation (PPA) accounting of MD Group acquisition occurred in 2021, as required by the accounting standards IFRS 3 revised and IAS 1, including reclassifications to ensure results comparability.

Group Revenues by Segment

€m	FY 2022	FY 2021 Restated ¹	Var %
Retail	237.0	210.6	12.5%
Manufacturing	184.8	170.5	8.4%

Total Datalogic	654.6	597.8	9.5%

□ Retail: +12.5% driven by double digit performance in APAC (+33.9%) and Americas (+29.4%)

□ Manufacturing: Americas and EMEAI lead the sector's performance, recording a growth of 28.1% and 11.4% respectively

T&L: the highest growing industry with an overall improvement of **12.9%**

□ Channel: positive performance in all geographic areas

Retail 37.1%

FY 2022 P&L

€m	FY 2022	FY 2021 Restated ¹	Var %
Revenues	654.6	597.8	9.5%
Gross Margin	274.5	257.6	
% on Revenues	41.9%	43.1%	-1.2 pp
Operating expenses	(225.4)	(199.4)	
% on Revenues	(34.4%)	(33.4%)	-1.1 pp
Adjusted EBITDA	80.3	85.7	
% Adj. Ebitda margin	12.3%	14.3%	-2.0 pp
Adjusted EBIT	49.1	58.2	
% Adj. Ebit margin	7.5%	9.7%	-2.2 pp
EBIT	40.9	47.0	
% Ebit margin	6.3%	7.9%	-1.6 pp
Net Result	30.1	39.5	
% on Revenues	4.6%	6.6%	-2.0 pp

- Gross Margin at 41.9%: -1.2 pp YoY . Improvement in Q4 and 2H compared to previous year thanks to positive pricing and mix and less inflationary effects on cost
- Operating expenses at €225.4m, mainly due to a negative currency effect, and normalized marketing and commercial activities
- Adj EBITDA margin at 12.3% (-2.0 pp YoY), in progressive

improvement across the year, with a 2H at 13.5%, up by

approx. 1pp vs previous year

Net Result at €30.1m vs €39.5m in FY 2021

EBITDA Adj: actual vs last year

Acquisition of Pekat Vision

Pekat is a software start up who has developed and owns proprietary algorithms of Machine Learning and Deep Learning for applications in the fields of supply chain and industrial automation.

Company Description

- Based in Brno, Pekat's core competitive advantage resides in its deep learning and machine learning algorithms
- Those algorithms and related software are a perfect match to Datalogic hardware products line, allowing for flexible solutions in a wider set of applications across manufacturing, T&L and potentially retail.
- Applications in which Pekat's software is used currently include object detection, classifier, defect detection, product sorting, camera-based robot guidance, optical character recognition and video, among others
- The team at Pekat comprises 15 employees, engineers, software developers mainly
- Purchase price of € 16.0m for 100% of the share capital

Types of licenses offered by Pekat

Software for industrial visual inspection and quality assurance. Effectively finds anomalies, detects and classifies defects and checks surface on materials and objects. Thanks to AI and focused-learning algorithms, it has a unique feature of detecting even previously unseen defects

Ready to use AI solution for defect detection running on smaller cameras

Al-enabled industrial visual inspection system for quality assurance
