INSTRUCTIONS

94ACC0165 DC Power Cable, 2.9 meters

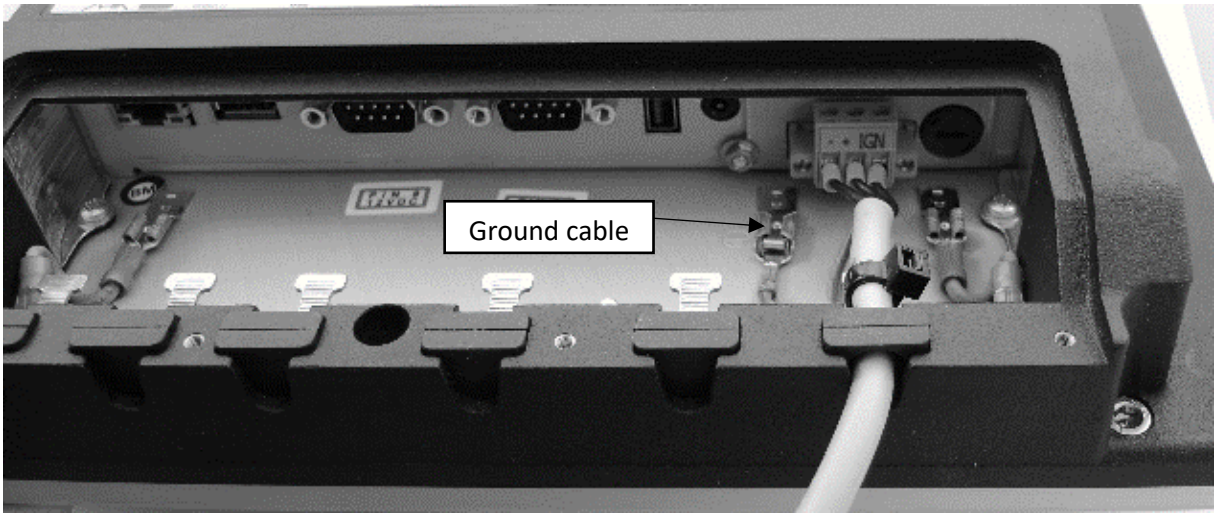

General Features

2.9 m long power cable to connect MC directly to 12/24/48 VDC source.

The pack contains the following components

- 1x DC Power Cable, 2.9 meters

Connect DC Power Cable, 2.9 meters

1. Ignition port (brown)
2. Positive power supply (grey)
3. Negative power supply (black)

If you want to start the VMC as soon as power is connected you must short circuit port 1 and 2.

To connect the DC Power Cable, 2.9 meters, remove the cable cover at the backside of the VMC. Connect the cable on the power supply port and don't forget to assemble the green and yellow colored ground cable. Fasten the screws with **0.6 Nm**.

The ground cable (green & yellow) must be connected on both sides VMC and forklift piler.

Use a cable passage and a tie wrap to secure the cable properly.
