Product Group Guide

# Fixed Retail Scanners: Leveraging the Datalogic Expertise

Datalogic, the world leader in fixed position retail scanning, offers the most complete range of readers with options for convenience, specialty, drug, discount, grocery and supermarket formats. Ranging from small, counter top presentation scanners, to sophisticated in-counter multi-plane scanner-scales, Datalogic provides industry leading vision and imaging technology that offers fast and accurate POS checkout to improve operational efficiency.

Since the first barcode scanner was developed over 50 years ago, Datalogic has developed innovative solutions for front-end retail including embedded AI Loss Prevention solutions to reduce shrink and boost productivity.

## *Our Goal*

Enable Retailers to offer the best shopping experience in physical stores, make the check-out process secure and reliable for retailers, and easy and fast for end users.

## *Why Datalogic?*

Our comprehensive portfolio offers both premium and value options for any retailer, with best-in-class scanning technologies to solve both current and future needs and applications.

## Our distinguishing factors

**BUILT TO LAST**

**BEST SCANNING PERFORMANCE**

# Datalogic Fixed Retail Scanners: A complete offering

## MAGELLAN PRODUCT RANGE

Much as Magellan was the first to circumnavigate the globe, Datalogic created the first bi-optic scanners and has remained at the forefront of the scanning market. The Magellan name has become synonymous with this market leadership and encompasses a variety of multiplane, single-plane, and presentation scanners for self-checkout, attended lanes, and kiosks. Today, this leadership is further strengthened by AI solutions that Datalogic developed for Loss Prevention and Productivity Improvement now available to run embedded in bioptic scanner.

## DATALOGIC CONNECT

One Digital Platform to Manage All Your Datalogic Devices

Datalogic Connect is the new intelligent IoT Cloud-based platform that empowers organizations to remotely control, manage and get actionable insights from all their deployed Datalogic devices. Built to optimize operational performance, reduce device downtime, and ensure enterprise compliance, Datalogic Connect gives IT and operations teams a powerful tool to manage their entire fleet from a single centralized digital hub, no matter where they are deployed.

## EASE OF CARE SERVICES

Everything you'd expect from a brand that cares.

A comprehensive set of options to deliver the best post-sales support for repairing our devices to keep them running over many years.

## Color Camera View

## DATALOGIC MULTI-PLANE FAMILY

The new Magellan series of bi-optic scanners have a great differentiation versus previous multiplane generation: they are not only barcode scanners with superior scanning speed but they go beyond. Thanks to the embedded TPU and dual-color cameras- they also enhance produce recognition, enable labels switching, multiple stacked item detection and incorporate mis-scan technology to help retailers reduce shrinkage (“Loss Prevention features”).

## MULTI-PLANE IMAGERS

### MAGELLAN 9900i

The Magellan™ 9900i scanner and scanner/ scale offer a 30% smaller bonnet and true top down and customer facing reading. The new portfolio includes options that enable Artificial Intelligence (AI) at the checkout putting the Magellan™ 9900i portfolio in a class of its own. The ability to choose from 3 chassis lengths allows customers to have a tailored solution that solves all of their checkout needs.

Checkout

Self-checkout

Loss prevention

### Highlights

- QuadVision™ cameras and multi-core processor for unmatched scanning throughput
- Low Bonnet improves accessibility in Self-Checkout and removes barrier between cashier and customer
- Top Down Reader provides a view of the top of items, yielding true 6 sided scanning and an excellent view of platter for loss prevention
- Customer Facing Reader lets customers scan loyalty cards and coupons while the cashier scans purchased items in parallel
- Integrated color camera modules in Horizontal plane and TDR for real time view of scanning area
- Enhanced processing enables AI on the scanner for produce recognition, ticket switching, item ID and other loss prevention applications
- On Board Ethernet switch connects internal and external cameras and syncs them to scanner illumination for true full color imaging

### MAGELLAN 9600i

Fresh styling, rugged design and new options that enable Artificial Intelligence (AI) at the checkout put the Magellan™ 9600i portfolio in a class of its own. The ability to choose from 3 chassis lengths and multiple check stand mount options allows customers to have a tailored solution that solves all of their assisted and self-checkout needs.

Checkout

Self-checkout

Loss prevention

### Highlights

- QuadVision™ cameras and multi-core processor for excellent scanning throughput
- Tall bonnet provides larger vertical field of view and fits into existing M93/9400/M8500 installations
- 5 sided scanning for easy scanning of any barcode in any application
- Integrated color camera modules in Horizontal and Vertical planes
- Enhanced processing enables AI on the scanner for produce recognition, ticket switching, item ID and other loss prevention applications
- Scale Sentry™ and All-Weighs™ platter ensure accurate weighing
- On Board Ethernet switch connects internal and external cameras and syncs them to scanner illumination for true full color imaging

### MAGELLAN 9550i

Designed for excellent performance and low power consumption. The Magellan 9550i delivers a low Total Cost of Ownership and outstanding scanning of 1D and 2D barcodes. GS1 2D Digital Link ready out-of-the-box.

Checkout

Self-checkout

### Highlights

- 45% faster 2D scanning than the previous generation. 14% faster than the previous generation in 1D, even for damaged barcodes.
- Less than 3W of power consumption for reduced total cost of ownership and increased sustainability while maintaining excellent performance.
- The Magellan 9550i is ready for GS1 2D Digital Link for the ultimate in traceability.

# AI Loss Prevention Solutions

## Produce Recognition

Deliver a faster, smarter checkout experience by instantly identifying produce and non-barcoded items in less than a second. The system captures high-quality color images, recognizes what is on the platter — even through transparent bags or nets — verifies scanned products, and prevents the selection of incorrect items. It can also detect the number of pieces present, ensuring accurate transactions. The result: higher throughput, delighted customers, reduced shrink, and a significant boost to operational productivity and your bottom line.

## Label Switching and Multiple Items detection

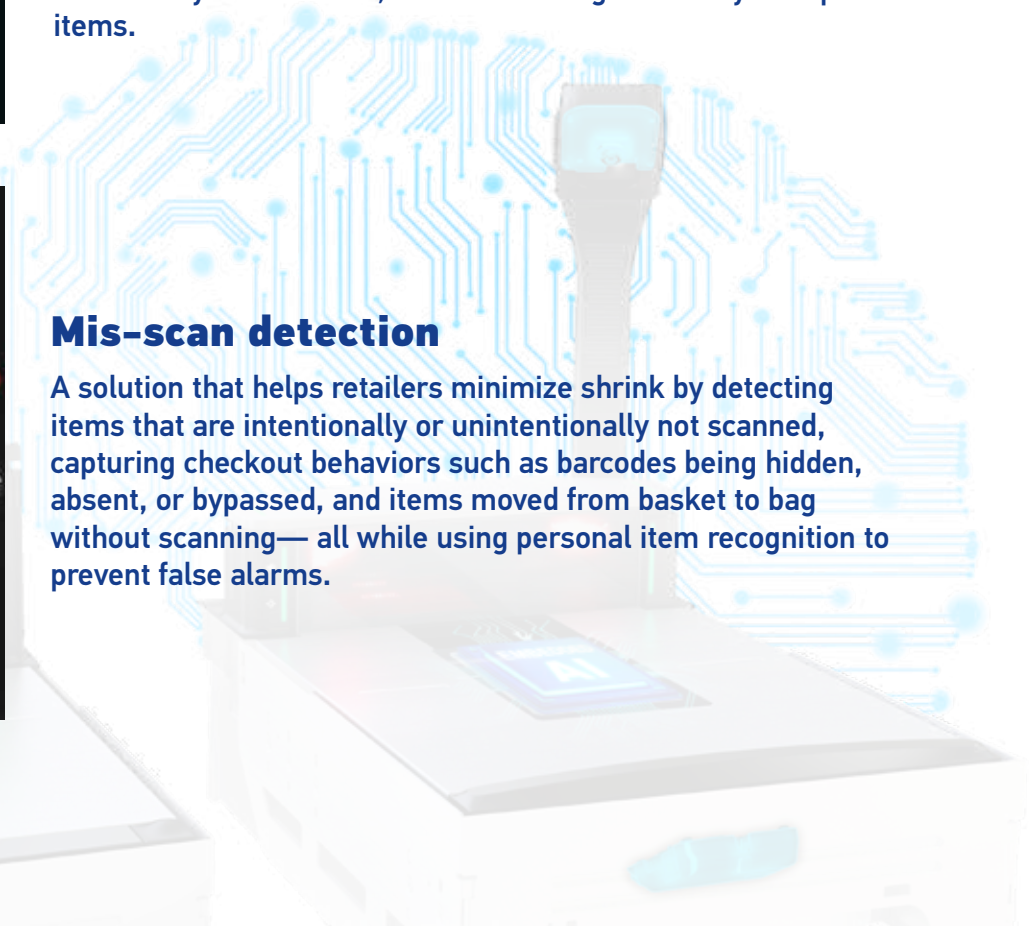

Label switching detect barcode switching in real time during checkout, identifying mismatches between an item's label and appearance that can cause pricing errors.

Multiple Items avoid stacking errors during scanning by identifying when multiple items are stacked, both vertically and horizontally, even if they are identical, without needing to identify the specific items.

## Mis-scan detection

A solution that helps retailers minimize shrink by detecting items that are intentionally or unintentionally not scanned, capturing checkout behaviors such as barcodes being hidden, absent, or bypassed, and items moved from basket to bag without scanning— all while using personal item recognition to prevent false alarms.

## Loss Prevention Solutions

# Product Portfolio

## DATALOGIC SINGLE PLANE FAMILY

Specifically designed for retailers that require high performance in a compact, horizontal or vertical form factor, the single plane products are tailored for medium to high volume POS applications at an affordable price.

These products are particularly effective for grocery, department, drug, do-it-yourself centers and general retail environments.

### Magellan 3600VSi Vertical model

- Ideal for thin **Self Check Out (SCO)** designs that need a large scan envelope
- Best suited for **limited space environments** where compact cashier counters are needed, but speed and ease of use are critical
- Increase **throughput** and maximize footprint

*Typical segment: Grocery, Discount, Convenience and Specialty Retail (DIY, Fashion, Drug)*

### Magellan 3700HSi Horizontal model

- **Open counter design** allows for minimalist store layout
- Ideal for stores with **minimal counter space**, which should be **kept free** for checkout items
- Enables a clean aesthetic and flexible, **customer-facing checkout experience**

*Typical segments: Convenience Stores, Discount stores, Grocery, and DIY*

## SINGLE PLANE SCANNERS

NEW

### MAGELLAN™ 3600 VSi

Engineered for speed, accuracy, and reliability, the 3600VSi delivers exceptional scanning across 1D and 2D barcodes, including printed, mobile, damaged, or hard-to-read codes. With enhanced throughput and motion tolerance, checkout associates and shoppers alike enjoy a seamless, efficient experience every time. Enable loss prevention with RFID and EAS to track and deactivate items through checkout and returns. Unlock more capability with the 1 MP Color Video camera for recording security footage or couple with external AI applications for loss prevention or item recognition.

#### Highlights

- Advanced digital imaging provides best in class performance and reliability
- Seamless 1D, 2D, GS1 Digital Link, OCR, and Digimarc® digital watermark reading; smoothly reads all bar codes, whether displayed on cell phones or printed
- Thin 8.4cm depth and wall mount bracket for easy OEM integration
- Designed with 85% TUV certified recycled plastics and 1.2 W low power consumption
- Software driven - flexible and upgradeable
- Read and write UHF RFID Tags
- 1MP Color Video and on glass color image capture
- USB-C power delivery
- Connect a handheld scanner with the auxiliary port
- Cable retention harness
- Datalogic Connect Platform for diagnostics, SW upgrades, and configuration
- Magellan Customer Service Scanner (CSS) with omnimount for customers to scan cell phones, coupons and loyalty cards
- Checkpoint Systems and Tyco Sensormatic EAS compatible
- Multiple interfaces in every unit

### MAGELLAN™ 3700 HSi

Datalogic's new 3700HSi series continues our legacy of innovation with industry-leading performance designed for today's fast-paced retail environments. Engineered for speed, accuracy, and reliability, the 3700HSi delivers exceptional scanning across 1D and 2D barcodes, including printed, mobile, damaged, or hard-to-read codes. With an in-counter design, checkout associates and shoppers alike enjoy a seamless, clutter free experience. Unlock more capability with the 1 MP Color Video camera for recording security footage or couple with external AI applications for loss prevention or item recognition.

#### Highlights

- Advanced digital imaging provides best in class performance and reliability
- Seamless 1D, 2D, GS1 Digital Link, OCR, and Digimarc® digital watermark reading; smoothly reads all bar codes, whether displayed on cell phones or printed
- In-counter high performance barcode reader for a clutter free checkout experience
- Premium top made of stainless steel and sapphire glass ensures long lasting operation
- Superior slide-scanning ergonomics to minimize item handling and lifting
- Designed with 85% TUV certified recycled plastics and 1.2 W low power consumption
- Read and write UHF RFID Tags
- 1MP Color Video and on glass color image capture
- USB-C power delivery
- Connect a handheld scanner with the auxiliary port
- Cable retention harness
- Datalogic Connect Platform for diagnostics, SW upgrades, and configuration

## PRESENTATION SCANNERS

### MAGELLAN 1500i

The Magellan 1500i presentation scanner is a versatile and stylish addition to any point of sale. It seamlessly decodes both 1D and 2D barcodes on everything from printed product labels to mobile coupons, loyalty cards, tickets and boarding passes. The megapixel sensor, custom optics and powerful decoding algorithms create a large reading area capable of reading a variety of 1D, 2D and Digimarc labels, including hard-to-read, truncated and damaged codes.

### Highlights

- Advanced digital imaging provides class-leading performance and reliability
- Seamlessly reads 1D and 2D barcodes, whether printed or displayed on mobile phone, laptop or tablets
- Ergonomic design and subtle adaptive illumination for user comfort
- The most compact size in its class for easy integration into kiosks
- Accelerometer allows for automatic transition to presentation mode for handheld scanning
- LED aimer for precision scanning and 'Green Spot' technology for good-read feedback
- Image capture & adjustable stand
- Riser, tilting riser, wall, or magnetic mounting options
- Available interfaces: RS-232 or USB, OEM
- Checkpoint® Systems EAS and Interlock Compatible
- Easily monitored and updated via Datalogic Connect, Aladdin or programming guides

### MAGELLAN 900i

The Magellan 900i omnidirectional presentation scanner is a versatile addition to any point-of-sale or service counter, and can read easily any barcode in any situation. The simple and clean aesthetic of the Magellan 900i, available in both black and white finishes, makes it blend into any store format and with any point-of-sale system.

### Highlights

- Advanced digital imaging provides excellent performance and reliability
- Seamlessly reads 1D and 2D barcodes, whether printed or displayed on mobile phone
- Subtle, adaptive illumination for user comfort
- Compact, ergonomic design is ideal for hands-free or handheld operations
- LED aimer for precision scanning and 'Green Spot' technology for good-read feedback
- Tilting riser, kiosk bracket, and magnetic mounting options
- Image capture & adjustable stand
- Available interfaces: RS-232 or USB, OEM
- Checkpoint® Systems EAS and Interlock Compatible
- Easily monitored and updated via Datalogic Connect, Aladdin or programming guides

## OEM BARCODE READERS

### MAGELLAN 1500i OEM

The Magellan 1500i is an ultra-compact, high performance presentation scanner for a wide variety of applications. The small size and flexible mounting options make it very easy to integrate into a kiosk or OEM application.

#### Highlights

- Reads 1D and 2D barcodes, whether printed or displayed on mobile phone
- Adaptive illumination for user comfort
- LED aimer for precision scanning and 'Green Spot' technology for good-read feedback
- Image capture
- Kiosk bracket for convenient installation
- Available interfaces: RS-232 or USB, OEM

### MAGELLAN 900i OEM

With a large field of view and updated electronics, the Magellan 900i OEM packs a lot of scanning performance into its small footprint. Both 1D and 2D barcodes, especially those displayed on a mobile phone, are read quickly and seamlessly. This versatility makes it perfect for a variety of applications, especially for self check out and kiosks in convenience stores or to scan loyalty cards or tickets.

#### Highlights

- Seamlessly reads 1D and 2D barcodes, whether printed or displayed on mobile phone
- Subtle, adaptive illumination for user comfort
- LED aimer for precision scanning and 'Green Spot' technology for good-read feedback
- Kiosk bracket for convenient installation
- Image capture and adjustable stand
- Available interfaces: RS-232 or USB, OEM
- Checkpoint® Systems EAS and Interlock Compatible
- Easily monitored and updated via Remote Management, Aladdin or programming guides

# Fixed Retail Scanners Applications

## ATTENDED LANE POINT OF SALE with Magellan 9550i, 9600i, and 9900i Multi Plane Series

- With digital imagers in all planes, the industry leading Magellan multi-plane scanners read both 1D and 2D barcodes seamlessly without requiring item orientation by the cashier.
- Choose from different models for preferred bonnet heights, scale sizes, auxiliary scanners, and technology in loss prevention and AI item recognition.

## SELF CHECKOUT POINT OF SALE With Magellan 9550i, 9600i, and 9900i MultiPlane Series and with Single Plane Series

- Multi-Plane scanners are ideal for Self-Checkout because they offer fast, hands-free scanning. Their advanced imaging technology ensures high accuracy, even for damaged, poorly printed, or digital barcodes, reducing scanning errors and improving the overall checkout experience.
- When more processing power and faster throughput is needed, the high end Magellan 3550HSi has the best scanning performance of any single plane scanner on the market.
- The USB auxiliary port included in both products makes adding a customer service scanner or a Datalogic handheld scanner quick and easy.

## ACCESS CONTROL with Magellan 1500i and Magellan 900i

- Reduce lines by easily reading 1D and 2D barcodes, whether printed or displayed on mobile phones.
- The 1500i ensures user comfort with adaptive illumination and compact ergonomic designs.
- Easily integrate with plug and play USB connectivity and simple configuration using Aladdin software.

## **KIOSKS (Ticketing, Price Checking, Smart Locker, Vending Machine)**

*Magellan 3600VSi, Magellan 900i and Magellan 1500i*

- The extra-large window and fast sweep scanning provide intuitive and fast reading from a variety of barcodes and other sources.
- Mounting brackets and fully enclosed housings are available for seamless integration.
- The Magellan 3410VSi is also available as an OEM product.

## **HEALTHCARE - LABORATORY**

*with Magellan 900i*

- Enable Industry leading scanning with a compact footprint that makes on-counter scanning simple and hands free.
- Hardware mounting and software configurations are customizable for your workflows to ensure efficient verification of critical data.

## **PICKING & PACKING (Logistics)**

*with Magellan 900i and Magellan 1500i*

- The omnidirectional imaging allows you to read codes in any direction and will keep up with your material handling with fast sweep speeds and large scanning areas.
- Rely on the 900i to decode even when barcodes are damaged or smudged while in transport, reducing critical disruptions to your operations.

# Software & tools

## DATALOGIC CONNECT

One Digital Platform to Manage All Your Datalogic Devices

**Datalogic Connect** is the new intelligent IoT Cloud-based platform that empowers organizations to remotely control, manage and get actionable insights from all their deployed Datalogic devices. Built to optimize operational performance, reduce device downtime, and ensure enterprise compliance, **Datalogic Connect** gives IT and operations teams a powerful tool to seamlessly manage their entire fleet from a single centralized digital hub, no matter where they are deployed.

Organization can now oversee and control the full device lifecycle with unmatched clarity, from deployment and configuration to performance optimization and predictive maintenance, turning actionable data in business intelligence.

**Visibility:** Track every device in real time with instant access to activity status, warranty coverage, health, and physical location.

**Smarter Configuration:** Standardize and protect your install base with secure, remote firmware updates and configuration rollouts. Easily schedule tasks, define deployment policies, and ensure every device stays aligned, compliant, and up to date.

**Intelligence of Insights:** Harness the power of advanced analytics, anomaly detection, and predictive diagnostics—all from a single, intuitive platform. Monitor critical data like battery health and maintenance needs to boost uptime and drive efficiency.

## DATALOGIC ALADDIN

### Smart software configurator

The First Retail Scanner configuration Aladdin 3.3.0.3 is the new software configurator for Datalogic OEM ScanEngine, Magellan product range and handheld scanners. It's an all-in-one software tool that offers easy and fast reader set-up. Datalogic Aladdin 3 provides customers the opportunity to manage the product configuration, and allows flexible advanced formatting through an intuitive user interface. The tool also makes it easy for customers to upgrade the product firmware, to attain the benefits of new reader features. Used in combination with the Datalogic USB-COM drivers, supports the following Microsoft® operating systems: Windows 11, 10, 8.1, 8, 7, 64-bit versions.

Available on the whole Magellan portfolio:

- Bi-optic scanners
- Single Plane scanners
- Presentation Scanners

# Service programs

Datalogic's EASEOFCARE Service Programs provide superior life-cycle support to ensure that products are always operating at peak performance.

Our market-leading Care programs are a key reason for customers to choose and keep Datalogic products, maximizing their uptime and lifecycle so that they can also be assured that their software is always running on a healthy and reliable device.
