KMA-4500-BK Kiosk Mounting Adapter Mounting Instructions

Mounting Instructions

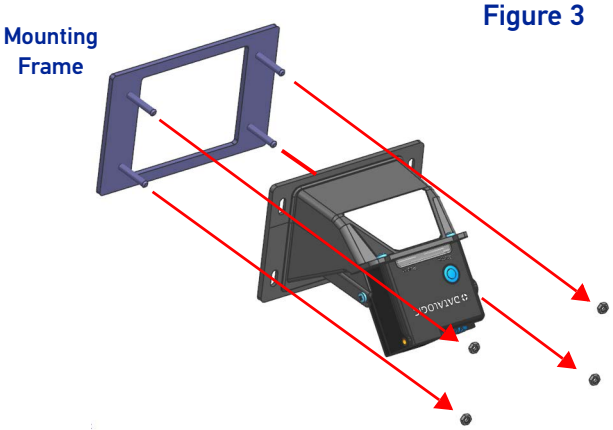

To mount the KMA-4500-BK Kiosk Mounting Adapter to a Gryphon GFS4500, position the adapter on the GSF4500 and fix with the 3 screws provided with your package as shown in Figure 1.

To fix it into a kiosk use the mounting holes as shown in Figure 2.

Figure 3 shows an example of a kiosk mounting. Please note that the image is for illustrative purposes only. The mounting frame and bolts are not supplied by Datalogic and are not included in the package.

The mounting frame is intended without any glass. The use of a glass in front of the output window may reduce reading performance.
