INSTRUCTIONS

94ACC0164 UPS Battery Backup with Speaker

General Features

The UPS Battery Backup with Speaker is a cable cover with an integrated battery pack and a speaker. In case of a power loss the Rhino II can be powered via the backup battery.

Please note that the UPS Battery Backup with Speaker is not compatible with 94ACC0175 Quick Change V- Mount.

94ACC0164 UPS Battery Backup with Speaker accessory is compatible only with Rhino devices that NATIVELY mount the electronic boards and internal cables necessary for the UPS operation.

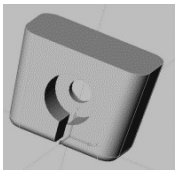

The accessory does not work for any Rhino.

The pack contains the following components:

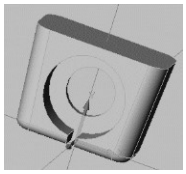

- 1 x UPS Battery Backup with Speaker
- 4 x M3x10 phillips head
- 4 x cable passage type 1
- 3 x cable passage type 2
- 5 x cable passage type 3
- 6 x cable ties

Assembling cable passage on the VMC

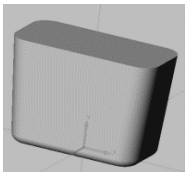

There are 3 types of cable passages which must be assembled before the cable cover can be installed.

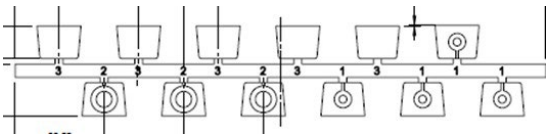

Type 1:
e.g. USB Cable

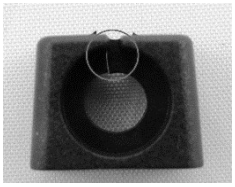

Type 2:
e.g. power cord

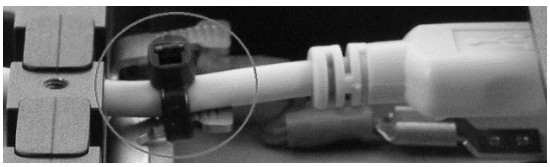

Type 3:
no cable

Depending on the cable diameter choose the best fitting cable passage type 1 or type 2. Cut the cable passage on the thin side (circle marked).

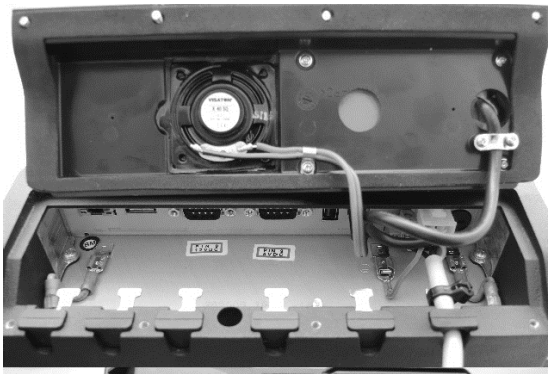

Insert the cable with the mounted cable passage in the VMC housing (the wide side of the passage must be on top). Use closed cable passage for unused cable slots.
